

The view of the database before any implementation. Photo 4 is posted by husnu and photo 5 by ahmet. See implementation details for more information.

The image displays two screenshots of the phpMyAdmin web interface, showing the 'finstagram' database. The top screenshot shows the 'tagged' table, and the bottom screenshot shows the 'follow' table.

Top Screenshot: Tagged Table

Server: MySQL:3306 » Database: finstagram » Table: tagged

Showing rows 0 - 3 (4 total, Query took 0.0010 seconds.)

SELECT * FROM `tagged`

Options: username photoID tagstatus

	username	photoID	tagstatus
<input type="checkbox"/>	ahmet	4	1
<input type="checkbox"/>	husnu	5	1

Query results operations: Print, Copy to clipboard, Export, Display chart, Create view

Bottom Screenshot: Follow Table

Server: MySQL:3306 » Database: finstagram » Table: follow

Showing rows 0 - 3 (4 total, Query took 0.0010 seconds.)

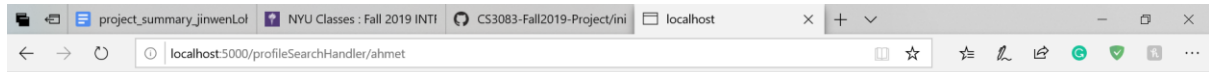

SELECT * FROM `follow`

Options: username_followed username_follower followstatus

	username_followed	username_follower	followstatus
<input type="checkbox"/>	husnu	ahmet	1
<input type="checkbox"/>	ahmet	husnu	1

Query results operations: Print, Copy to clipboard, Export, Display chart, Create view

The view of the database after the unfollow by husnu against ahmet.

The image displays two screenshots of the phpMyAdmin web interface, showing the state of a database named 'finstagram' after an unfollow action.

Top Screenshot: 'follow' table

- URL: `http://localhost/phpmyadmin/sql.php?server=1&db=finstagram&table=follow&pos=0`
- Server: MySQL:3306, Database: finstagram, Table: follow
- Query: `SELECT * FROM `follow``
- Message: Showing rows 0 - 0 (1 total, Query took 0.0008 seconds.)
- Options:

	username_followed	username_follower	followstatus
<input type="checkbox"/> Edit <input type="checkbox"/> Copy <input type="checkbox"/> Delete	husnu	ahmet	1
- Query results operations: Print, Copy to clipboard, Export, Display chart, Create view

Bottom Screenshot: 'tagged' table

- URL: `http://localhost/phpmyadmin/sql.php?server=1&db=finstagram&table=tagged&pos=0`
- Server: MySQL:3306, Database: finstagram, Table: tagged
- Query: `SELECT * FROM `tagged``
- Message: MySQL returned an empty result set (i.e. zero rows). (Query took 0.0007 seconds.)
- Options:

username	photoID	tagstatus
----------	---------	-----------
- Query results operations: Create view
